

## Identity

- AVP GABAergic neuron immature
- AVP GABAergic neurons
- AVP/Prok2/Nms neurons
- CCK neurons (GABAergic)
- GABAergic neurons
- GABAergic progenitor
- Immature GABAergic/dopaminergic neurons
- Neuroblast (astrocyte fate)
- Neuroendocrine cells (immature GABAergic neuron)
- Prlr and Nr3c1 immature GABAergic neurons
- Prlr GABAergic immature neurons
- Prlr GABAergic neurons
- Progenitor GABAergic neurons
- Retinal ganglia cells
- Retinal ganglion cells
- VIP/AVP neuronss (GABAergic)
- VIP/GRP neurons
